DATA SHEET**

## FEATURES

# 30016 BLUEFOUNT 352

**FOGRA APPROVED IPA FREE FOUNT**

### IPA FREE

#### Description

Bluefount 352 IPA Free Fountain Solution is intended for any large high-speed Heat-set web press. Contains powerful new wetting agents to ensure good water/ink balance during longer print runs. Perfected to run with Dahlgren style dampening systems.

- Maintains reduced water settings
- Corrosion protectorates
- Fights calcium deposits in water
- Brighter and denser colours
- Stable buffered pH
- Excellent protection for CtP plates

### FOGRA APPROVED

Calcium suppressants treat the incoming water and reduce roller contamination.

**Recommendations for use:** Ensure system has been totally cleaned and flushed before starting. Starting dosage of 3- 4% is recommended with zero IPA. Dosage may be reduced at 0.25% increments if required. Can be used with IPA for difficult stocks or conditions up to 4%.

### HIGH SPEED HEATSET

New high tech wetting agents have allowed us to formulate totally solvent free unlike similar popular fountain solutions and will provide excellent plate protection for all CtP plates during running and stoppages,

**Appearance:** Liquid

### CTP OK

#### Advantages:

- Reduces surface tension
- 100% IPA free running
- Sharp dot reproduction
- Extremely fast start-ups
- Minimizes start-up paper waste

**Colour:** Blue

**Odour:** No characteristic odour

**Solubility:** Completely soluble in water

**pH of Concentrate :** 4.8- to 5.2

**Flash Point °C :** No n Flammable!

### ANTI- CALCIUM AGENTS

### BUFFERED PH

### NON RED LABEL

### ANTI- CORROSION AGENTS
