

00479 AQUEOUS COATING CLEANER

FOR ALL UV & WATERBASED COATINGS AND INKS

Developed exclusively for use with Printing Industry Coating products, our concentrated Waterbased Cleaner removes stubborn ink and coating deposits quickly and effectively. Fully Biodegradable and safe on the environment. Will safely and effectively remove all traces of Waterbased or UV ink and coatings from rollers, anilox rollers or press parts either on press or after removal. Fully water mixable & non flammable. Flexible dilution according to individual conditions and degree of contamination. (may be used in concentrated form for heavy soil) Contains innovative new water based solvents and fast breaking emulsifiers that remove all printing inks with ease and safety. Fully tested on major ceramic coated roller products. Also highly effective in removal of ink deposits from press frames and castings and floors.

FEATURES

- Concentrated
- Fast Acting
- Harsh Alkali Free
- Non Flammable

ADVANTAGE

- Highly Dilutable
- Time Savings
- Damage Free
- Safe storage

BENEFITS

- Very Economical
- Cost Savings
- Safe to Use
- Waterbased & UV
